Membrane switch örnekleri / Membrane switches

Gratik Display paneller ve etiketler:

Polycarbonat (Lexan), Polyester ve PVC malzeme üzerine düz veya kabartmalı panel, etiket ve mekanik Switch'ler için ön grafik panel üretmekteyiz. Kabartma için talebe göre dairesel, kare veya dikdörtgen şeklinde modeller uygulanabilmektedir.

Graphic Displays and labels:

We use Polycarbonate (Lexan), Polyester and PVC materials for the production of flat or embossed type of graphic overlays, labels and nameplates. Embossing can raise (or depress) circular, square or rectangular keys above (or below) the overlay surface.
